

BIKE STORE

Business Intelligence Dashboard — Power BI

Sales · Inventory · Stores & Staff · Customers

What this report covers

Project Summary

Data model, tools, and scope of the analysis

Sales Overview

Revenue, orders, and monthly performance trends

Sales Analysis

Breakdown by category, year, and quarter

Stores & Staff

Store comparison and employee performance

Products & Inventory

Stock levels and best-selling categories

Customers

Customer value and top accounts

PROJECT SUMMARY

From raw sales data to a live dashboard

The Bike Store dataset covers three retail locations selling bicycles, parts, and accessories. Order, product, staff, and customer records were modeled into a star schema and connected in Power BI to track sales performance, inventory health, and team productivity in one place.

3

Store locations

10

Staff members

321

Products tracked

1.445K

Customer records

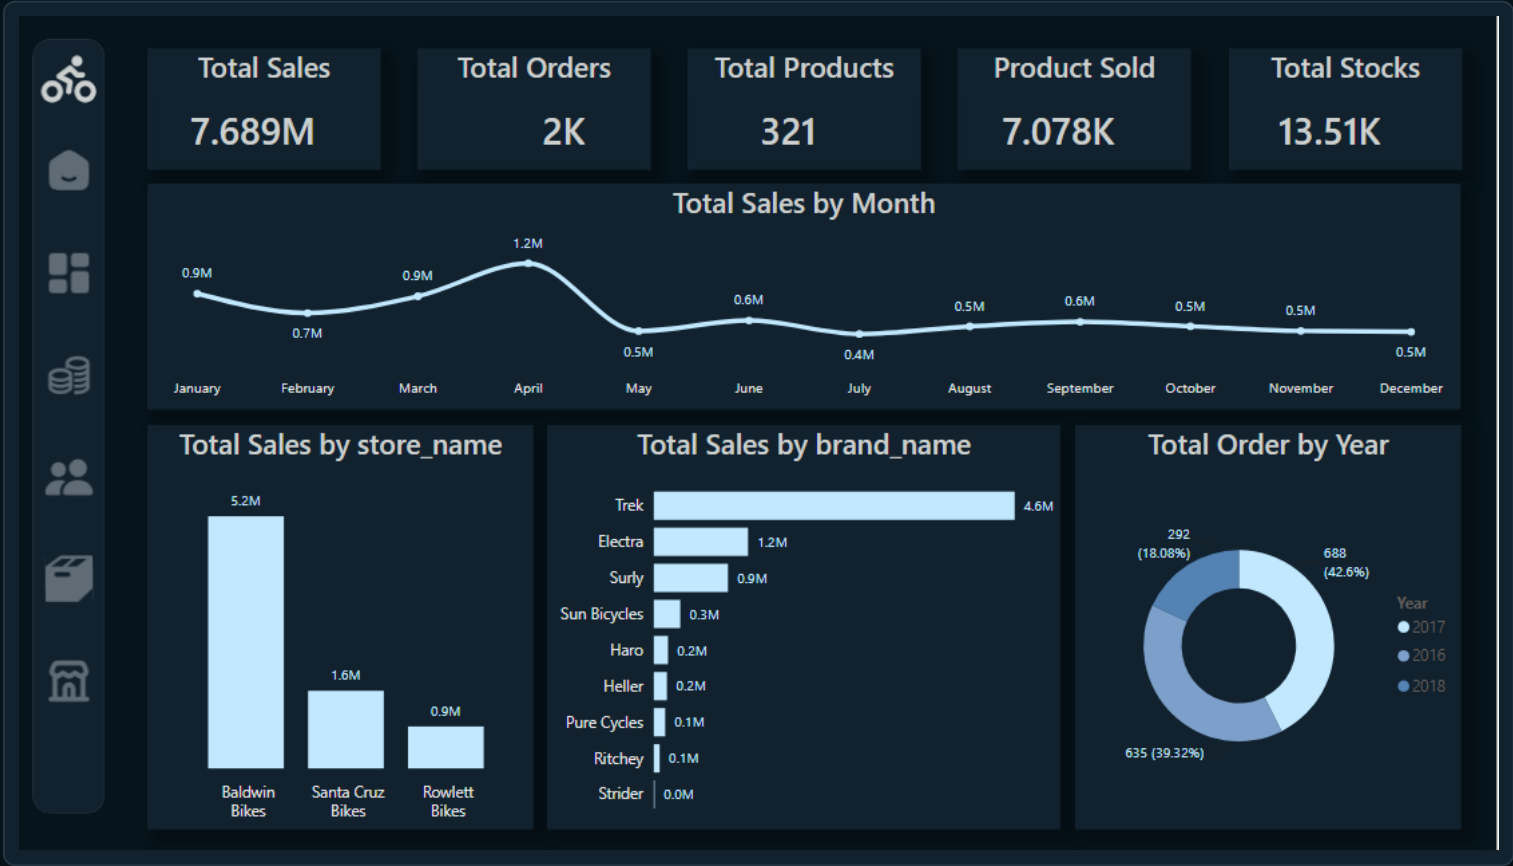

Tool used

Microsoft Power BI

5 report pages, DAX measures for KPIs, and a dark, executive-style theme built for clarity at a glance.

Sales Overview

\$7.689M net sales

Generated across 2,000 orders and 321 products since 2016.

April peak

Monthly sales peaked at 1.2M in April, then settled near 0.5M.

Baldwin leads

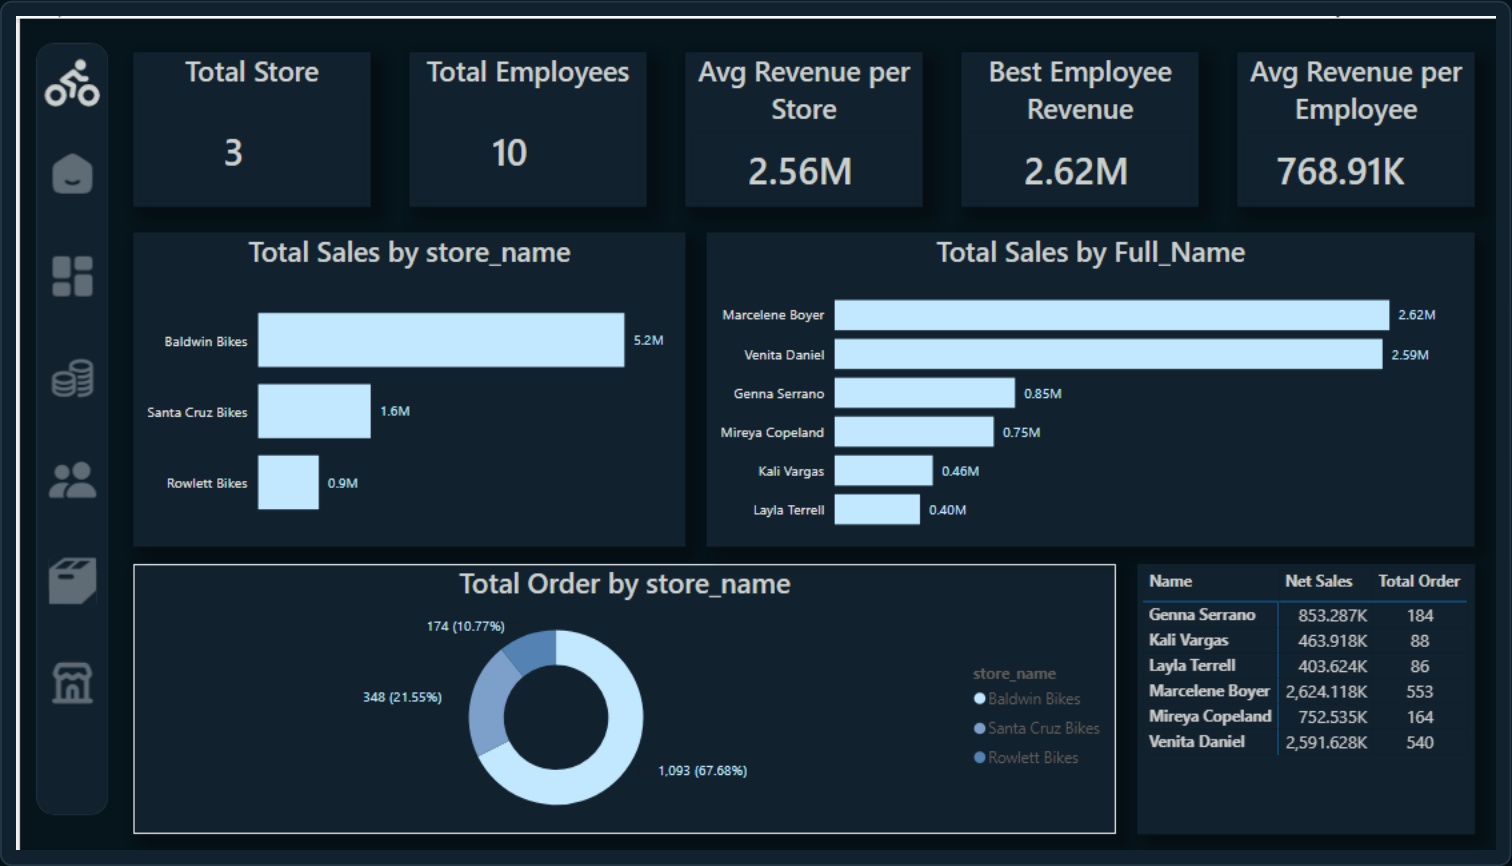

Baldwin Bikes drives 5.2M of sales, far ahead of the other two stores.

Trek dominates

Trek alone accounts for 4.6M — more than triple the next brand.

Sales Analysis

\$8.58M gross sales
8.58M gross before discounts, 7.689M net after adjustments.

Mountain bikes on top
Mountain Bikes lead category sales at 2.7M, ahead of Road Bikes at 1.7M.

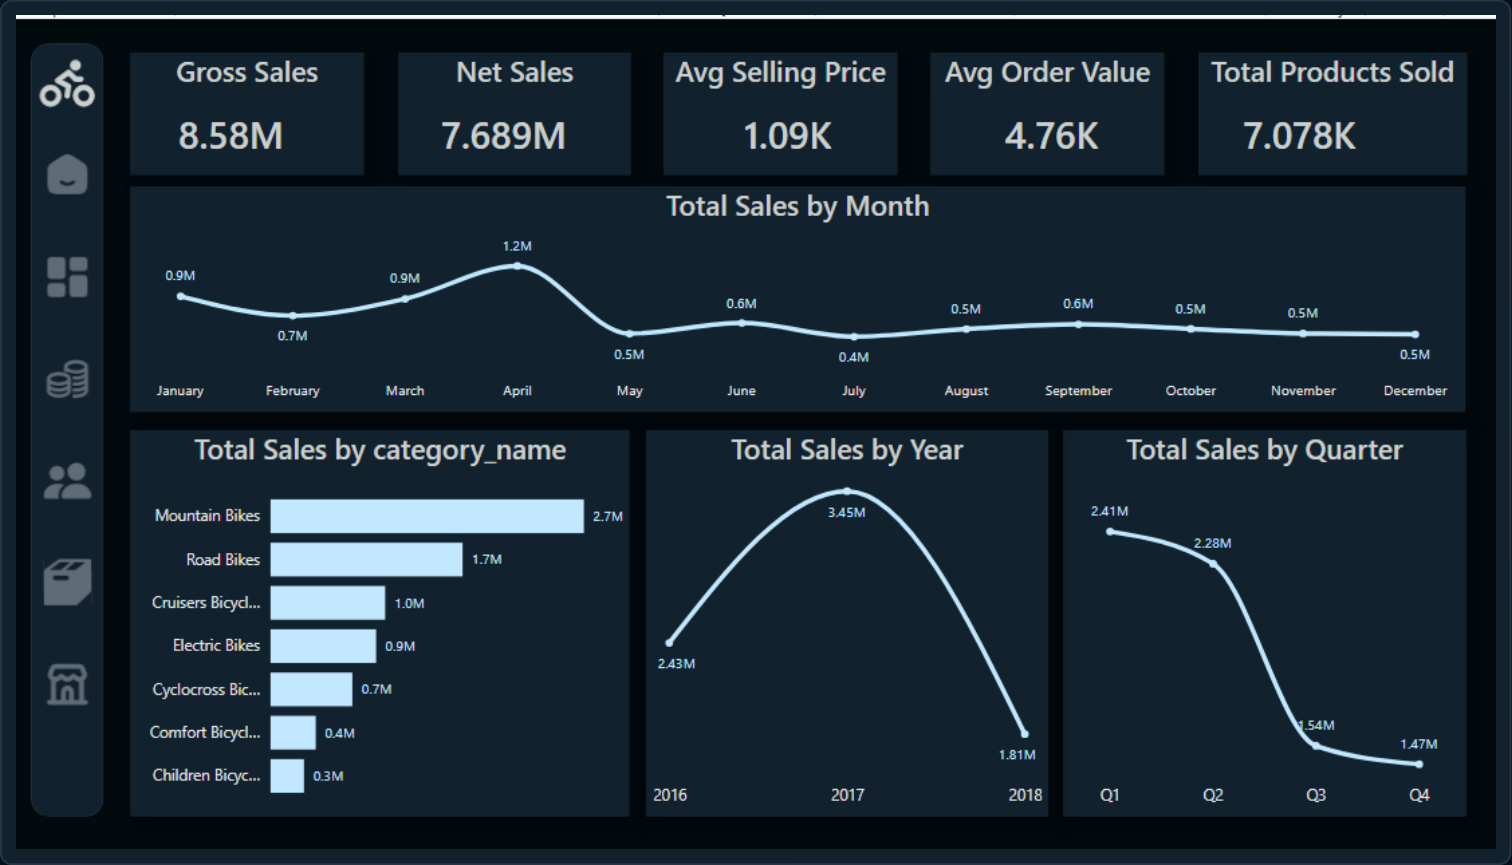

2017 was the strongest year
Sales rose to 3.45M in 2017 before declining as 2018 data closed early.

Quarterly slowdown
Sales fall steadily from 2.41M in Q1 to 1.47M in Q4.

Stores & Staff Performance

3 stores, 10 staff

Average revenue per store is 2.56M; per employee, 768.91K.

Top performer

Marcelene Boyer leads with 2.62M in revenue across 553 orders.

Baldwin Bikes out front

67.68% of all orders are placed at Baldwin Bikes alone.

Wide performance gap

Top two staff generate 5x more net sales than the lowest performer.

Products & Inventory

321 products, 13.51K units

Only 25 products are currently out of stock.

Mountain Bikes sell best

Despite Cruisers holding the most stock (3.38K units).

Stock vs. demand mismatch

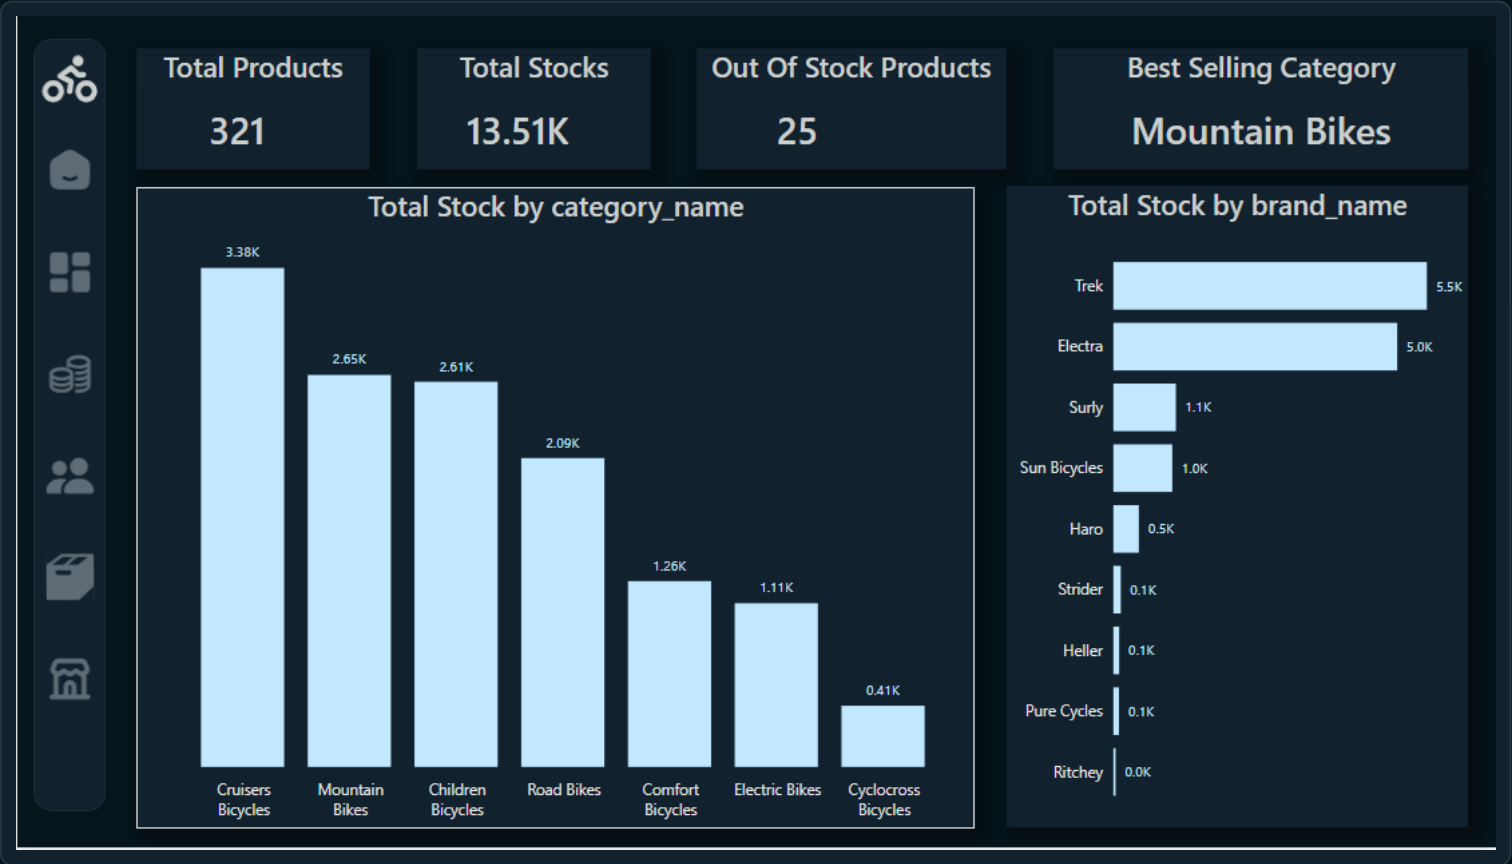

Cruisers and Children's bikes are overstocked relative to sales.

Trek & Electra dominate stock

Together they hold over 10K of the 13.51K total stock units.

Customers

1,445 customers

Averaging 5.32K revenue and a 4.76K order value per customer.

Top account: 34.81K

The highest-value customer generates 6.5x the average customer.

Long tail of value

Top 10 customers range from 25K to 35K — a small, high-value segment.

Actionable segment

Worth building a loyalty track for the top ~1% of customers.

What the data recommends

Double down on Baldwin & Trek

The strongest store and brand combination — protect and grow this partnership with better stocking priority.

Rebalance inventory

Shift stock away from slow-moving Cruisers toward Mountain Bikes, the actual best-selling category.

Coach underperforming staff

A 5x gap between top and bottom performers suggests a clear training opportunity.

Build a VIP customer program

The top 1% of customers generate outsized revenue — a loyalty track could lock in repeat purchases.

Thank you
